555 17th Street, Suite 3200, Denver, CO 80202

P 303.295.8471

hwang@hollandhart.com

Hao is dedicated to maximizing the value of clients' intellectual property through legal strategies tailored to their unique business and technological needs.

Hao provides specialized guidance to help clients from large public companies or emerging startups navigate complex legal landscapes and intricate, high-tech arrangements. He works with clients to leverage their existing intellectual property portfolios to develop strategies for bringing new technologies to market with a competitive edge. Hao assists clients with their advancement in technology from conception to development, to trial, and to market, helping businesses maximize their commercial potential while safeguarding their innovations.

By regularly representing clients across industries such as life sciences, software development, and media/content-based transactions, Hao delivers pragmatic counsel on intellectual property strategy, licensing agreements, and technology development. With knowledge of the latest developments in software law and open-source policies, he provides clients with up-to-date advice to help mitigate risks and support innovation. Hao's strategic approach to supply chain management integrates IP protection with operational efficiency, enables clients to deliver high-quality products to the market effectively. His expertise in media law helps clients maximize the value of their content, ensuring legal compliance while fostering innovative and lucrative brand collaborations, sponsorship opportunities, and content creation partnerships.
