BJSullivan@hollandhart.com

Brian leads and manages practitioners working on high-volume portfolios for large, sophisticated technology companies.

A registered patent agent, Brian supervises aspects of the work of our team of patent agents and engineers focused on developing and managing high value, strategic patent portfolios. His work includes the preparation and prosecution of patent applications, and the preparation of claim charts.

Brian is a licensed Professional Engineer.

Prior to joining Holland & Hart, Brian served as the Principal Engineer of a Colorado wind power company and as an engineer in the automotive industry.
