Oil and Gas
Conventional Power
Oil and Gas Regulatory
Renewable Energy and Storage
Mining

EDUCATION

American University, Washington College of Law, J.D., 2021

Syracuse University, B.A., 2012

BAR ADMISSIONS

Washington, DC

He counsels energy, natural resources, and agricultural clients on federal policy matters, with particular emphasis on public lands, tribal affairs, and conservation programs. Paul helps clients advance their projects through effective permitting and regulatory strategies. He assists in protecting his clients' interests by challenging federal agency regulations and permitting decisions, as well as defending project approvals.

Paul brings ten years of Congressional experience advising members of the Senate and House of Representatives on energy, environmental, and agricultural policy matters. Paul is adept at working with stakeholders to advance policy objectives from concept to legislative drafts to bill passage and implementation. He draws on insider knowledge of Congressional operations and federal administrative procedure to help clients navigate agency rulemaking, develop legislative solutions, and build strategic coalitions to achieve their objectives.

Before joining Holland & Hart, Paul served as Counsel and Senior Legislative Assistant to Senator Mark Kelly. Paul worked on the House Agriculture Committee, and as Staff Director and Counsel for the House Subcommittee on Conservation and Forestry, where he negotiated legislative matters including the Inflation Reduction Act. Prior to the committee, Paul advised Arizona members of Congress Tom O'Halleran and Ann Kirkpatrick on matters affecting federal agencies, states, tribes, and private industry.

EXPERIENCE

Paul counsels clients on:

- Federal legislative and regulatory strategy
- Public lands policy and permitting
- Tribal government relations and Indian law
- Agricultural and conservation program compliance
- Natural resources development
- Environmental policy and rulemaking
- Congressional investigations and oversight
- Agency rulemakings and administrative procedures

CLIENT RESULTS

Policy Achievements

Assisted with passage of Federal legislation authorizing implementation of the Drought Contingency Plan (DCP).

Achieved transfer of Federal jurisdiction to allow development of a pumped-hydro storage facility on Federal land.

Secured 20-year stewardship contracting authority and the expansion of Good Neighbor Authority to tribes and counties, to promote forest restoration.

Addressed boundary issues with both National Park Service and the U.S. Forest Service through statutory changes.

Successfully amended an Indian Water Rights Settlement to extend enforceability date and provide funding flexibility.

Assisted in the development of new funding streams for the construction of federally constructed schools.

Successfully secured congressionally directed spending requests that addressed water conflicts.

Worked effectively with Interior officials on key drought policy and funding, including the Lower Colorado River Basin System Efficiency and Conservation Program.

Staffed the 2018 Farm Bill Conference Committee.
