

Brynna Wasserman

Associate

555 17th Street, Suite 3200, Denver, CO 80202

P 303.295.8135

BMWasserman@hollandhart.com

Brynna focuses her practice on patent prosecution and litigation, utilizing her technical background in mechanical engineering and physics to serve clients in various technology sectors.

Brynna has experience in preparing and prosecuting patent applications, particularly in mechanical technology fields. She also has patent litigation experience, involving IPR proceedings, invalidity and infringement analysis, and district court matters. Her technical education and background as a registered patent agent allow her to effectively bridge technical innovation and legal protection for her clients.

Before joining Holland & Hart, Brynna worked as an associate at Calfee, Halter & Griswold focusing on patent prosecution, and previously as an associate at King & Spalding handling patent litigation matters.
